

# Free Assistance for Lead Based Paint Hazards

*Do you have children who either live in or frequently visit your home? If so, it's important for you to know that **Lead paint is dangerous, unhealthy, and can severely harm the brain and nervous system development of children under 6 years old. Lead paint is still found in many of the City's older Northside Homes.***

The Richmond Lead-Based Paint Hazard Control Program is a partnership between the City of Richmond's Department of Housing and Community Development and the non-profit project:HOMES that provides federal funds for **free testing and repairs** for homes with at-risk children or pregnant women. Homes that children visit for at least 6 hours a week can also qualify.

If you would like to apply for the program, please contact project:HOMES at (804) 718-0517. Alternatively, you can also receive an application by attending our upcoming Application Workshop.

**Project:HOMES Staff will be available to help you fill out your application on
